Important to Cotton Planters.
Two Pounds of Lint Cotton Produced by the Application of
1 LB. CHESAPEAKE GUANO.

READ the certificates:
MONROE CO., GA., Dec 25, 1868.

GENTLEMEN—In reply to your inquiry, I take pleasure in saying my experience with the Chesapeake Phosphate I bought of you last Spring, has been very favorable. I used two hundred pounds upon three fourths of an acre, third years' new ground, applying it in the drill, rows three feet apart, sixteen inches in the drill, on which I had five thousand seven hundred stalks of Cotton. From this I gathered eighteen hundred and twenty-four pounds of Cotton. The last of August the worms committed great ravages in it—destroying all of the late crop. Had it not been for the worm, I should have made at least one-third more on the land. I can cheerfully recommend it to planters as a fertilizer for cotton.
Respectfully, LEROY HOLT.
JONESBORO, Clayton Co., Ga., Oct. 26, 1868.

Mr. A. K. Seago, Atlanta:
DEAR SIR—I am glad to report that the Chesapeake Guano bought of you last spring, has given entire satisfaction in this community; indeed the use of it has resulted much more profitably to planters than the use of any other fertilizers that have been used here. I applied it to lands that had been worn out for many years, 350 lbs. on 2½ acres; and some of my neighbors believe I will pick 2,500 lbs seed cotton from this plat of land. Say 140 lbs. Chesapeake Guano has produce 1,000 lbs. seed cotton. I take great pleasure in recommending the Chesapeake Guano to others.

EVENING EDITION.

ATLANTA, GEORGIA:::::::APRIL 12.

☞ Capt. Charles B. Wallace, Superintendent Selma and Meridian Railroad, has placed us under additional courtesies for the year 1869.

CHANGE OF SCHEDULE.—On yesterday the schedule on the Georgia Railroad was changed. The only change made was in the time of arrival and departure of night passenger trains at and from Augusta and Atlanta. It leaves Augusta now at 8.45 p. m., instead of 10 p. m., as formerly, and arrives there at 5.30 a. m. It leaves Atlanta at 5.40 p. m., and arrives here at 7.40 a. m.

☞ We can furnish no caption to this paragraph. Let the reader judge how far our mental or cordal parts be at fault for the failure. Here follows the unvarnished recital of the facts: The Legislature of 1866 we believe, passed a law appropriating a certain sum of money for the humane purpose of feeding and educating such maimed soldiers as are physically unable to maintain themselves and are without means of support. A considerable number availed themselves of the benefits of that munificent act—an act not of charity, but of prudence, of patriotism, of sheer justice. We believe the catalogues of all the colleges and a few high schools in the State were graced with the names of more or less of those most meritorious beneficiaries. Many, relying upon the *bona fides* of the people's deputies to carry out the contract they had voluntarily made, had gone, at the heavy cost, *to them*, of providing decent raiment, paying traveling fare and other necessary expenses incident to leaving home and entering upon the life of a student. Some had borrowed money wherewith to meet these charges—to be paid back after they had worked their way to competence. Among the last acts of the late Legislature was one *repealing the law which appropriated money for that noble and pious use*. The consequence is that those needy, maimed boys, have been forced to hobble off whence they came—empty in the midst of abundance—thirsting for that Pieran Spring which they are no longer permitted to drink of—poor in all, save an unbroken spirit, which, thank God! the consciousness of having deserved better things will ever maintain ERECT! But, Oh! it was a sad sight to see scores of those scarred representatives of the "Lost Cause"—more crutches than men—their empty sleeves dangling and flapping like so many trailing pennons—leaving the State University a few days ago! The saddest story in *Heathen* Mythology is that of the unnatural mother who devoured her own children. Here, the *Christian* mother turns her offspring out upon the commons to live by begging or die of starvation. And such an offspring! Cornelia, "mother of the Gracchi," never pointed to "jewels" such as they! What pen of diamond can adequately portray their merits? what pencil of light depict their claims upon our love and honor? what tongue, even though touched with fire from off the altar, fitly tell the story of their deeds of valor, of suffering, of self-sacrifice, and glories in all things save success! But patriotism, humanity, gratitude out of view, can the action of the General Assembly be vindicated upon any principle of economy? Our indignation and mortification are too great to allow us to argue the point, and we shall therefore content ourselves with the single confession, that in our simplicity we imagined it quite as cheap to pay for the education of the boy as the ignorance of the man. We want no drones in the hive of consumers, the world is full enough already. By educating these deserving young men, they will become producers. But, merciful God! to what times are we reserved, when our law-makers deny the rights of sepulture to the heroic dead and the opportunities of education to their maimed, surviving comrades!

De Quincey.

Still more severe is Miss Martineau's judgment of De Quincey whose moral infirmities she places in a painful light, especially as regards his relations with the poet Wordsworth. After contracting his fatal habit of using opium, his existence became only a series of dreams. In his hungry days in London, he would neither borrow nor beg. But as years passed on, he not only became a more helpless victim to his prominent vice, but lost all sense of honor and courtesy, to say nothing of gratitude and sincerity. Having written to Wordsworth in terms of admiration and sympathy, he received an invitation to Westmoreland valley, where he finally took up his abode in the cottage that had been Wordsworth's. With his wife and a growing family of children, he shared largely in the hospitality and other kind offices of the fastidious poet. He was admitted to his household confidence and frequently favored with substantial aid. In return for this friendly treatment, which was certainly not called forth by any liking for his manners, conversation, or character, he wrote a series of papers exposing everything which he knew to the disadvantage of the Wordsworth's. The infirmities of one member of the family, the personal blemish of another, and the human weaknesses of Wordsworth himself were malignantly set forth with ingenious aggravations for the purpose of casting odium on the benefactors to whose kindness and forbearance he was so deeply indebted. A little anecdote in connection with this passage of De Quincey's life related by Miss Martineau is worth repeating.

"An old friend was talking with him by the fireside, and mentioned De Quincey's magazine articles. Wordsworth begged to be spared any account of them, saying that the man had long passed away from the family life and mind; and he did not wish to ruffle himself in a useless way about a misbehavior which could not be remedied. The friend acquiesced, saying, 'Well, I will tell you only one thing that he says, and then we will talk of other things. He says your wife is too good for you.' The old poet's dim eyes lighted up instantly, and he started from his seat and flung himself against the mantelpiece, with his back to the fire, as he cried with loud enthusiasm, 'And that's *true! There* he is right!' and his disgust and contempt for the traitor were visibly moderated."

The Fire at Madison.

[From the Madison Farm Journal.]

At half-past nine o'clock on Thursday night, as the congregation was leaving the M. E. Church, whither many citizens had gone to hear a sermon from Bishop Beckwith, the alarm of fire was given.

Soon the streets were lined with crowds hurrying to the scene of disaster, jostling and tumbling each other, all anxious to discover the location and render whatever assistance lay in their power.

The fire broke out on Main street, between Messrs. Wynn & Peacock's store and Mr. S. Shaw's furniture rooms. When first seen the two buildings were rapidly being enveloped in flames, and in an incredibly short space of time the conflagration had extended to the whole line of wooden buildings on that side of the street to the corner of Court House Square, and thence down the street in a southerly direction to the house of Mr. Dyer, where it stopped. The wind changed and the flames were communicated to the opposite side of Main street. From the City Hall the maddened element swept along carrying in its progress three whole blocks of buildings including the brick block in front of the Court House down to Mayor Thompson's stables. Railroad street, as far as the dwelling of Judge Thrasher, melted away in a few moments. The large number of wooden buildings on that street afforded but a morsel for the insatiable element. A well organized force succeeded in saving the Court House and Robertson's and Dexter's corner.

The fight at the dwelling of Captain Vason, was perilous and exciting in the extreme. With the limited means at hand it is almost a miracle that it did not share the fate of the other buildings in close proximity. The coolness and courage of the brave men who labored there, was worthy the highest commendation. At one time the heat was so intense as to char the timbers and seethe water as it was thrown on, while the flames were leaping through the tree-tops that overhung the roof.

Goods were hastily removed from stores only to be devoured in the streets. Very little was saved, and most all in a damaged condition.

The flight from homes was a sad spectacle. Families were houseless before they knew they were in danger. Few had time to save more than their wearing apparel, and such articles as were of immediate necessity.

The scene viewed at a distance presented a spectacle full of wild sublimity, startling beyond description. Forty-two buildings, comprising handsome stores, dwellings and other houses, scattered over an area of five acres, were on fire at one time, while goods that had been piled in the streets and back yards, were being rapidly consumed. And the conflagration spread, the wind, scarcely perceptible at first, increased in strength until the whole space seemed to be one sea of flame rocked with tempest. Kegs of powder exploded with a loud crash that was heard for miles around; kerosene tanks and combustible liquids in the drug stores ignited and shot up sheets of white and blue flames that lashed the earth or caught on the gurgling winds, leaped heavenward. Men were hurrying to and fro wherever their services were most needed; women and children fleeing from crumbling ruins to find protection with those more fortunate, while the air was filled with smoke and cinders.

By 12 o'clock the flames had subsided and their progress stayed for lack of material to feed upon. Houseless chimneys, and blackened walls stood out like grim spectress in the dim shadows that slowly enveloped the city, or what used to be our city, as the fire died away.

In a short time the streets were deserted, the populace worn, exhausted and saddened, had retired and left to smoulder and drift in ashes the fairest portion of our once beautiful city. Too much cannot be said in praise of our citizens who put forth herculean efforts to arrest the progress of the flames, and minister to the wants of those who had suffered. We noticed several ladies who did good service, some of them exposing themselves to immediate danger, and facing the destroying element with a courage that was truly heroic. We cannot close this notice without expressing the gratitude of our people to the following named gentlemen from a distance who rendered signal service. Gen. D. M. DuBose of Washington, Capt. Miller, of Baltimore, Dr. Newton, of Athens, and Mr. Wilson, of New York; also to Jos. O'Mally, Jas. Quinn, and James Keanns, of Manchester, England, who expressed their sympathy and at the suggestion and example of Gen. DuBose, contributed substantial aid to our needy people, which was handed to Col. Billups.

We do not yet know the extent of the loss sustained by our citizens. But had we the data we could not furnish it in detail today, because of the "pied", scattered and damaged condition of our office. We will give an accurate list of losses next week. The whole number of buildings burned was about 75. The loss is variously estimated at from $500,000 to a million of dollars.

The fire was the work, no doubt, of an incendiary.

PHILADELPHIA, April 8.—This has been a day of horror in this city. Two convicts were to have been led to execution; but the greater criminal forestalled the operation of the law, became his own executioner, and died in his cell the death of a suicide from the effects of a dose of strychnine. Within the last 24 hours Twitchell had evinced an overwhelming terror at his impending fate; and it was not surprising, therefore, that he sought relief in suicide. His spiritual adviser, the Rev. George Bringhurst, parted from the prisoner at 11 o'clock last night, with a promise to return to him early this morning. At a very late hour in the night, three Catholic priests, who had been attending on Gerald Eaton, confined in an adjourning cell, visited Twitchell. The prisoner received his visitors kindly, and manifested satisfaction at their attention. The preists saw that the prisoner was greatly agitated, and that he was suffering intense mental agony, but they had not the remotest idea that he meditated such a close to a career of crime which the morning hours revealed. When the keeper, Mr. Cassiday, looked into Twitchell's cell, about 2 o'clock this morning, Twitchell appeared to be asleep; he had the blanket over his head. There was a light burning in his room, and there were no indications that he was suffering from the effects of poison or sickness. Mr. Cassiday again looked into the cell at 5¼ o'clock, and noticed that Twitchell's face looked pale and deathly. He than opened the door, and in company with watchman Peterson, entered. The blanket with which Twitchell's face had been covered was thrown down on the bed about to his middle. The sheet was tightly wound around his body. Turnkey Cassiday examined the body, and found the neck still warm, but the face and limbs were rigid and cold.—*N. Y. Tribune.*

☞ A Northern exchange says: "Last week a sleigh was returned to one of our livery stables with a lady's fur collar in it. The livery man sent it to the residence of the man who hired the team. The lady of the house said it did not belong to her, but she would keep it and ask Mr. —— how it got into the cutter. There was trouble in that family."

☞ Longstreet's friends in Washington say he only accepts the position of Surveyor of the port of New Orleans temporarily, as he has been promised a foreign mission. He must be a decided favorite with Grant.

SUNDAY'S DISPATCHES.

WASHINGTON, April 11.—Grant has determined, it is stated, when a nominee is rejected by the Senate to select a new name outside of applicants on file, thus hoping to cure the disposition of rival applicants to oppose persons nominated.

Snow fell steadily nearly all day—now cold. Destruction of fruit is feared.

MONDAY'S DISPATCHES.

WASHINGTON, April 12.—The Senate, after appointing committees and informing the President of the fact of continuing the committes of last session, and resolving to meet daily at noon, went into Executive session.

A misapprehension exists regarding the banks.

The Cuban resolution is a mere resolution of the House, and does not require the concurrence of the Senate or the signature of the President, and has no legal force. The act itself, however, is complete, and was intended to support Grant in Cuban affairs during vacation, by assurance of subsequent support in the House.

HINTS CONCERNING KEROSENE—A REMEDY FOR SEVERE BURNS.—Scarcely a week passes during the winter months but we read accounts of frightful accidents from kerosene lamps exploding and killing, or scarring for life, men, women, and children. A simple knowledge of the inflammable nature of the fluid would probably put a stop to nearly all the accidents. As the oil burns down in the lamp, a highly inflammable gas gathers over its surface, and as the oil decreases the gas increases. When the oil is nearly consumed, a slight jar will often inflame the gas, and an explosion is sure to follow, dealing death and destruction. A bombshell is not more to be dreaded. Now, if the lamp is not allowed to burn more than half-way down, such accidents are impossible. Always fill your lamps every morning, then you need never fear an explosion.

Half a teaspoonful of salt added to the oil of a lamp which holds a pint will take away the disagreeable odor sometimes apparent, and it is said to prevent the formation of that dangerous gas. It is a simple remedy, easily applied. It is also asserted that the salt makes the oil last longer, but we have only hearsay evidence concerning it.

Kerosene is the best antidote for a severe burn or scald. Immerse the injured part in cold water for a moment; dry with a soft cloth, taking care not to rub at all. Then bathe in kerosene, and the terrible pain soon ceases. We know of a little child who put his foot and leg into a pail of nearly boiling water. The above remedy was applied, and in a few minutes the child's screams ceased. We know not of the philosophy of the matter, but we do know that it is the most efficacious remedy for severe burns or scalds in the materia medica.—*Springfield Republican.*

DELMAR'S STATISTICS OF THE CENSUS OF 1868.—When Delmar was Director of the Bureau of Statistics he originated a plan for taking the census, through the assessors of internal revenue. The "census" for 1868 under that arrangement, is completed as far as it is likely to be. Where there are no returns from assessors, the deficiencies have been supplied by estimates. The present Deputy Special Commissioner of Customs has stopped the work, not seeming to attach much importance to it, and is in no way responsible for the results. The recapitulation of the population of the United States and Territories for the year 1868, as made up through the means above stated, is as follows: White population of the States, 33,291,081; colored 4,649,862—total 37,930,903. The total, with the population of the District of Columbia and the Territories, is 38,422,995. The reported population of California includes Indians and Chinese, Maine includes 500 Indians, Michigan includes about 4,000 Indians, Minnesota includes 8,000 Indians, Oregon includes 7,270 Indians and 2,436 Chinese, and Rhode Island also includes a few Indians.

MR. BRADY'S LAST WRITING.—The following remarkable passage is the last ever written by James T. Brady, the eminent New York lawyer, who died a few days since:

"Our brothers in the pilgrimage will fall at our side, but, however thickly the arrows of death may shower, we can, while our powers continue, do naught but move on until we reach the awful instant when we are to exchange the feeble pulse of transitory existence for the ceaseless throbbings of eternal life. There, even there, at that mysterious frontier, if we have been faithful and fearless in the march, we may, after all the objects of this world shall have become lost forever to our moral sight, there may be unfolded to our new and spiritual vision another realm of unimaginable glory, where we, and all whom we loved on earth, may realize the promise which the Great Ruler of the Universe has made unto the just."

☞ To slake the thirst of New York in part, 200,000,000 glasses of lager beer are annually required.

Our New Job Office.

We have an entire new JOB OFFICE, embracing presses, types, borders, cuts, rules and everything pertaining to a complete outfit.

We are prepared to fill all orders for plain, fancy and ornamental work, in the neatest style, on the shortest notice, and at the lowest living rates.

We respectfully solicit the patronage of our friends and the public generally.

A LIVE INSURANCE COMPANY.—The St. Louis Mutual Life Insurance is recognized as the leading Life Insurance in the West, and superior to the most in the East. It has now entered upon its eleventh year, carrying insurance to the amount of $41,988,731, with $3.619,671 of assets. In 1868, it received $2,292,884 of premiums, and paid an interest of $253,425. It paid a larger interest, received a larger income, paid more dividends and conducted its business at less expense, than its most judiciously managed contemporary during the same period. It is a live company, managed by live men. Good judgment and careful management when associated with energetic intelligence invariably produces their fruits, and the extraordinary success of their company is the result of these good qualities combined and exercised in the advancement of the great and growing interests of the company. The St. Louis Mutual Life Insurance Company have been fortunate in securing the services of Messrs. Godfrey and Magill as General Agents for the State. They are live business men, and the success of that company in this section is mainly due to the energy, reliability and integrity of their Genearl Agents.

Procrustes Bedstead.

It seems that this noted piece of household furniture is about the only outfit that the provident care of our "blood-tub" Congress is willing to make for the South.

By our morning dispatches (9th) our readers may see how faithfully we are guaranteed a Republican form of government and comfort themselves with the following:

WASHINGTON, April 9.—SENATE.—After a somewhat bitter discussion Mr. Morton's amendment, making the adoption of the 15th Amendment a condition precedent to representation, was adopted by yeas 30. Nays, Messrs. Anthony, Bayard, Boreman, Casserly, Conklin, Davis, Edmunds, Fenton, Ferry, Fessenden, Fowler, McCreary, Norton, Patterson, Sawyer, Sprague, Stockton, Thurman, Trumbull and Willey—20.

An additional clause was adopted, declaring that the bill shall not operate as a complete restoration until the action is approved by Congress.

"Making the adoption of the 15th amendment a condition precedent to representation" is by way of pulling the legs out to the proper length to fit the bed. "An additional clause declaring that the bill shall operate," etc., is to cut the shank off for being a little *too* long we suppose. And so it goes, the pendulum swinging back and forth, from too little good on the right to too much bad on the left, and the dial plate showing the approaching hour of doom. God help the country, for it is past helping itself. It would be a little comforting to the spirit of pluck, that is the inborn quality of men, if Congress would not act in the cowardly manner it has behayed to the South while perpetrating its outrages on us.

We should think that for the sake of its own "bad eminence," Congress would act more like the royal beast, and with head and mane erect and a mastery, making every movement sublime, crunch and crush and dash to earth as suits the wilful and despotic mood. But this is not the Radical style. The head that peers above the lonely Confederate grave, as it crawls its way out, is no lion's—this piece-meal tearing and torturing does not represent the nobler type of those individuals in brute nature that were created to inspire dread in the hearts of the weak. But we see a conduct on the part of men holding the usurped powers of the most tremendous earthly agency, which shows th[illegible] weakness of dissolving nature and [illegible] vacilation of a reprobate, with a co[illegible] utterly useless for want of exer[illegible]science [illegible] what is the matter that th[illegible] Senate and House do not march stra[illegible]ght forward like the true manly tyrant and take what they want? Why palter and hesitate about law? Have they not set all law at defiance—even the law of self-preservation? Why talk or think of mercy, after ten thousand pains and penalties, and worse than all pains and penalties, the *humiliations* inflicted for mere revenge? Let Congress have done with this miserable hypocracy, which would have the world believe that what it does in regard to the South is under color of law, and in dutiful respect to the limitations of the Constitution. When the military convention between Sherman and Johnston was despised and set aside—when military arrests and imprisonments were made repeatedly in contempt of that convention, a breach was made in the public power, wide enough for that vile herd to pass through, which drowned itself in the sea, and we think just eighteen hundred years too soon to give the world the full benefit and force of the example.

We are called on to go to the polls with perfect freedom to choose or reject—but choose just what Congress has chosen before for us. We must even then wait after complying as faithfully as we may know how to do with the demands made of us, to see if our super-serviceable slave labor will be accepted. We have the liberty to ratify it seems. But it is the liberty the Puritan father granted his son in attending the services of the Catholic Church: "My son, I would not do so harsh a thing as to interfere with your conscience in a matter of worship; by no means would I dictate, but if ever you enter another Catholic Church, I will whip you within an inch of your

The Indian appropriation bill provides that none of treaties negotiated since June, 1867, be ratified, and places $2,000,000 in the hands of the President to be used as he sees fit in settling the difficulties existing between the Government and the savages.

Ten treaties, of various kinds, including the Alabama treaty, are pending before the Senate.

The steamer Gettysburg is ordered to take line soundings off the coast of Cuba and the neighboring Islands.

In the Supreme Court, Chase and dismissed the appeal in the McCardle case, for want of jurisdiction.

In the case of the steamboat Belfast vs. Boon, from the Supreme Court of Alabama, the decision was reversed with costs, with directions to dismiss libel. The Court in this case claims Federal jurisdiction in marine and admiralty cases, from sea to the head navigation of rivers.

In the case of B. F. Hall vs. Geo. Coppell, from Louisiana, judgment reversed with costs.

The Court decided that a foreign Consul engaged in trade during the war, have no more rights in business than a citizen of the United States.

Chief Justice Chase delivered the opinion of the Supreme Court, in the Texas bond case. He holds that the annexing of Texas made it a State in the Union, and that no act of the citizens or Government of Texas alone, has or could dissolve that relation, the ordinance of secession and all legislative acts in aid of rebellion were void. That the Legislature was an illegal body; that the United States bonds in controversy were the property of Texas at the time of secession, and that the law of Texas which required their transfer was illegal, and, therefore, that Texas has the right to recover the bonds and perpetuate the injunction, and it is decreed accordingly. The Court holds that Congress had a right to adopt measures of reconstruction.

Justice Greer dissented as to the merit[illegible] and jurisdiction of the case, he holding [illegible] Texas was not in fact a State in the [illegible] Union. Justices Swayne snd Miller d[illegible]ssented as to the jurisdiction only.

The Atlanta delegation leaves homeward to-night. The Augusta delegation left yesterday. These delegations, with other conservative Georgians present, have the credit here of defeat[illegible] Butler's Georgia bill.

RICHMOND, Apr[illegible] 12.—Gov. Wells, this afternoon, add[illegible]ressed a large Republican meeting, gi[illegible]ving the history of the passage of the V[illegible]irginia election bill by Congress, [illegible] attributing much of the measure to [illegible]s own exertions in its behalf.

Gen. Stoneman, with the 21st Infantry, left to-day for Baltimore, en route for California.

The Nation's Honor.

Our minister to Spain thus "peaches" on his Secretary of Legation. Mr. Hale states that on the 14th of October, at one of the largest public meetings ever held at Madrid, Mr. Perry and his wife took a conspicuous part. He says:

> Mrs. Perry is a middle-aged woman, not far from 50 years of age, and on the present occasion she appeared on the stage before the immense assemblage with her long hair flowing down her neck and shoulders, and, with stage effect, delivered a short poem in favor of the abolition of slavery in Cuba. The meeting then voted itself a society for the abolition of slavery in Cuba, with Mrs. Perry as its President. Mrs. Perry's poem was printed and circulated in great numbers throughout the kingdom. This action Mr. Hale pronounces highly improper and reprehensible on the part of repretentatives of a Government maintaining neutrality.

For this the Secretary accuses his chief, the Minister plenipotentiary, etc., etc., of smuggling, and thereby robbing the Treasury of her most Christian Majesty. But we are advancing, and is not the negro free—all of us in fact except *white* people.

A NERO FIDDLING.—The New York Tribune in this cold blooded style says:

> The President evidently means to treat the recently enfranchised classes with perfect fairness in the distribution of the offices, and to select from the colored race as readily as from any other, when he finds men believed to be honest, capable, and loyal. He has now nominated a negro Postmaster of the Capital of South Carolina, and a negro Assessor of Internal Revenue in the commercial metropolis of the South, besides having filled a number of minor offices with negro appointments. The disposition thus evinced will command a cordial approval from the great mass of the President's supporters.

But will he ever "find men"—will he ever find one single man—Mr. Greely, in *all the North*, who in his opinion will "be honest, capable and loyal" enough to fill an office if he happens to be a nigger and the office is located north of Masons and Dixon's line. It is no doubt a pleasant thing for the curious who are making experiments on us here in political philosophy, to see us writhe and squirm like worms on a fishhook, but who among those men of science try their theories on themselves.

CROPS AND THE WEATHER.—We had the pleasure of seeing many of the planters of this (Terrell) county, on Tuesday last, and they report a good stand of corn, and plantation work moving on satisfactorily.

The planting of cotton is now being attended to, making haste to get to their cornfields for the first plowing.

Have had quite a cold snap, but so far the fruit of this section is not damaged, and have better prospect for a peach crop than for many years. Upon the whole, our prospects are flattering, for good crops and plenty of money.—*Dawson Journal.*

INFIRMARY FOR THE BLIND!

DR. W. A. HOOTEN

HAS REMOVED HIS INFIRMARY FOR THE Blind from Cotton Hill, Ga., to Atlanta, Ga., where he has located permanently. He is now prepared to treat diseases of the Eye successfully, and will give his personal attention to all cases presented. He has been a practicing physician eighteen years. He relieves almost all cases without the knife. He has been blind three years himself, and after having exhausted, as he thought, the skill of the profession, both North and South, became in possession of a treatment by which he was soon restored to sight. He uses the same treatment with which he himself was relieved, and has restored a great many persons from total blindness. He knows of no Oculist in the United States who uses the same treatment. He also treats Chronic Diseases in all forms, particularly diseases of Females, Venereal troubles of long standing, Dropsies, Liver Complaints, Coughs, etc.

Terms for treatment, CASH.

INFIRMARY—Large two story brick building on corner of Baker and Collins streets.

To remove from the minds of the most scrupulous any prejudices that may arise, he refers the public to the following first class names, giving the Post office address of each, and proposes that for proof that any of the certificates herein published by him are not genuine, or that these cures were not effected by him as herein stated, to pay to the order of the individual producing said proof the sum of Five Thousand Dollars.

CERTIFICATES.

To the Blind:

Go to Dr. Hooten, at Cotton Hill, Clay county, Ga., and be cured. If [illegible] possible to have your eyes restored, he can and [illegible] will do it. My daughter lost her eye sight suddenly of Amaurosis. I had almost despaired of her ever being restored, but on hearing of Dr. Hooten, I immediately placed my daughter under his treatment, and in a short time she was entirely restored, and can now see as well as she ever could at any time. Do not delay, but go at once to Dr. Hooten, and be cured. His treatment is harmless. If he does you no good, he will do you no harm. My daughter and I cannot find words sufficient to express our gratitude to Dr. Hooten.

This certificate I give cheerfully, earnestly hoping it may prove a benefit to the blind, and also to my much esteemed friend, Dr. Hooten.

Very respectfully,
WILLIAM SMITHA.
Eufaula, Ala., June 1st, 1867.

SMITHVILLE, GA., May 31, 1867.

To Persons Afflicted with Sore Eyes:

I feel it my duty to Dr. Hooten, and to those of our good people who are troubled with diseases of the eye, to say that, after suffering four years with Chronic Inflammatory Sore Eyes, and after applying to a large number of most eminent physicians without obtaining any kind of relief I was relieved of blindness, all soreness of the eyes, and, I may say, entirely cured within two weeks of treatment by Dr. Hooten. I can cheerfully say further, that his treatment is mild, and most certainly harmless, if not beneficial. I would like to pay Dr. Hooten the debt of gratitude I owe him for the almost miraculous cure of my blindness, and give this certificate gratuitously, hoping that it may be of some benefit to him, and also to suffering humanity. Respectfully,

THOS. W. JOHNSON,
Prop. of Eating House, Smithville, Ga.

For the benefit of those suffering with Sore Eyes and in justice to Dr Hooten, I will state that I took my wife to Dr. Hooten, on the 7th of May, 1868, entirely blind—the result of a very high degree of Inflammation of the Eyes. She commenced improving very soon under his treatment, and continued to improve rapidly until quite restored to sight. On the 15th day of July following, she returned home with her sight entirely restored, without the slightest inflammation about her eyes perceptible. I feel safe in recommending Dr. Hooten to every one suffering with their eyes. Dr. Hooten is a Georgian by birth and education, and deserves the confidence to which he is so much entitled.

S. S. DUNLAP,
Firm of Morgan & Dunlap, Macon, Ga.
July 25th, 1868.

I placed myself under treatment of Dr. Hooten in August, 1868. When I arrived at Dr. Hooten's I could not discern a ray of light—was entirely blind of Amaurosis, and one-half of me paralized. After three months' treatment of Dr. Hooten, my paralysis was removed, and my sight entirely restored. I can now enjoy the light of day in peace and happiness—can perform my daily labor on a farm as before my affliction.

Respectfully,
S. L. SANDERLIN.
Dover, Ga., Feb. 15, 1869.

To those Troubled with Diseased Lungs, as Coughs, etc

I had long been troubled with a cough, considered by many to have consumption. On calling Dr. Hooten to see me he readily detected the cause of my cough, and cut into my lung. From the incision made by him there was discharged at least a quart of puss daily, for eight months in succession. He restored me to perfect health, except that lung does not act well. I can now labor as hard as I ever did. If your cough is severe it will pay you well to take treatment of Dr. Hooten.

Respectfully, JAMES HARDMAN.
Cotton Hill, Ga., Jan. 1, 1868.

I herein certify that I had not seen a day's health in ten years before taking treatment of Dr. Hooten, because of a chronic affection of the liver. I became greatly troubled with Dropsy—could feel the water shake in me every step I took. In four days of treatment from Dr. Hooten, I was entirely relieved of the Dropsy. However strange it may appear, it nevertheless is true.

I would certainly advise all persons troubled with Dropsy to give Dr. Hooten a trial.

Respectfully, SAMUEL R. PINCKSTON.

Approved acceptances, payable Nov., 1869	45 00

TESTIMONIALS:

We select the following extracts for the benefit of those who have not used Rhodes' "Standard" Manure:

S. Wyatt, Esq., of Allington Plantation, near Waynesboro, Ga., writes as follows to Messrs. B. M. Rhodes & Co.:

"Your Phosphate I am highly delighted with; I gave it a fair trial along with several other Standard Manures, and I regard it fully equal if not superior to the best of them. On one field of 100 acres, that I am sure would not, in its natural state, have produced over 400 lbs. of seed cotton to the acre, I have already gathered 700 pounds, and think I shall get fully 200 pounds more.

"Two other fields of 100 acres, better land, I have gathered, at two pickings, over 1,000 pounds to the acre of seed cotton, and think I shall get 200 pounds more.

"I tried it, also, on corn, and found it very good, but not equal in its results to the cotton crop. Several of my neighbors, whose lands adjoin my own, and is pretty much the same character of land, who used no fertilizer at all, have signally failed, making no more than half a crop, if so much as that. Where I applied Rhodes' Phosphate the cotton was heavily fruited, bolls larger, the staple longer, stouter and better than where none was used, so much so that any one, even though he may never have seen the growth before, could readily see it. The only objection to it is, it causes the cotton to open faster than we can possibly gather it—at least, such is my experience."

T. C. Howard, Esq., of Darien, Ga., writes as follows:

"It is proper that I should say the results of the use of your fertilizer have been very marked and indeed surprising. I have made more cotton by its aid on worn out land, that has not been in cultivation in two years past, than I have been able to do on the best swamp or bottom land on my place in Mississippi."

ATHENS, GA., January 23, 1869.

Messrs. P. P. Pease & Co., Atlanta: I applied the two tons of Rhodes' Super-Phosphate, which you furnished me last year, at the rate of 400 pounds to the acre, on thin land, considerably exhausted by continued cultivation, without manure, and have no hesitation in saying that it is an excellent fertilizer for cotton. On the eight acres to which I applied it, I picked upwards of 8,000 pounds of seed cotton—more than double what the land would have produced without the fertilizer. It is also proper to mention, that while the caterpillars stripped all the leaves and young bolls off an adjoining patch, manured with Dickson's Mixture, commencing their ravages in August, they did not attack that manured with Rhodes' Super-Phosphate until the first week in October.

WILLIAM M. BROWNE.

Thousands of certificates and letters could be published, showing the value of Rhodes' "Standard," a quick and permanent fertilizer.

Swanson & Boykin, we beg to inform the ladies of Atlanta and vicinity that we are opening a very select assortment of Domestic and Foreign Dry Goods, Corsets, Embroidries, Summer Balmorals, Hoop Skirts of the latest styles, Kid Gloves, Notions, etc., and respectfully ask an examination of our stock, before purchasing elsewhere.

Velocipedeiana.—A gentleman took an airing yesterday evening through our principal streets on a velocipede, creating quite a sensation. We expect to receive one from New York in a few days, for the special benefit of "our fat boy" on his travels. As he is "gentle and kind" he will allow subscribers to "ride behind" with pleasure.

Geo. Sharp, Jr., the Live Jewelry Store—Has just received the Largest Stock of fine Watches, Diamonds and Jewelry ever imported to this market, at the most reasonable prices.

Who is it?—Brother Willingham of the LaGrange Reporter says that "Gossip has it that another one of our fair is to wed an Atlanta man."

A bacheloric Editor of this city suddenly left yesterday morning, taking the Road leading to East Point. "Have you seen Sam," Charley?.

Josh Billings on Books.—I luv books; they are handy to hev round a domestic habitation or a bisiness place. There are various kinds ov books, viz.: Music books, law books, blank books, etc. Books hev good effects on people. 'Twas only 'tother day I saw a bisiness man writing in a ledger, and as he wrote a most beautiful smile lit up his face; I sed tu myself, he's struck ile, and is making the entry. So seein him in sich a good humor, I gently inquired the cause ov the physiogmatical illumination, an' he sed 'twasn't ile exactly, but he felt good whenever he writ in a book manufactured by W. R. Hanleiter, Granite Block, Atlanta, and I believe him.

Gen. A. H. Colquitt.—This gallant soldier, true gentleman and earnest christian, delivered an interesting lecture to the Sunday School children of Bainbridge recently—we hope to have him interest the Sunday School children of Atlanta before long.

Geo. Sharp, Jr., the Live Jewelry Store—Has just received the Largest Stock of fine Jewelry, all gold, ever seen in Atlanta, all at New York prices. He keeps nothing but all gold Jewelry. mar25-d1m

A Humanitarian.—We learn that the sexton of a church in a neighboring town went off the other Sunday with the keys of the church, and thus delayed meeting. He excused himself on the ground that he went to feed a sick steer.

Geo. Sharp, Jr., the Live Jewelry Store—I have One Hundred Gold and Silver Watches of all grades and prices, from Eight Dollars up to Four Hundred. mar25-d1m

Answer.—Bro. Willingham is informed that we have not seen "Mac," and are glad to be able to say so.

Geo. Sharp, Jr., is a Watch-maker with Twenty-one years experience, and charges reasonable prices for his work, but does it well. All work guaranteed to give satisfaction. Jewelry repaired same as new. mar25-d1m

The Banner District.—In Rough Edge District in Troup county, at the recent magistrates election, there were three managers and ten candidates. The Constable received five, and the Justice of the Peace four votes.

Geo. Sharp, Jr., the Live Jewelry Store—Has bought for gold a large assortment of fine Watches, adjusted for Railroad men. These Watches are warranted perfect time keepers, and can only be had in this city at his store.

The following beautiful tribute to the memory of a child of God, now passed from earth to Heaven, trills upon the tenderest chords of the heart.

Inscribed to Mrs. Jeannie L. Byers, on the death of her son.

BY J. M. JOHNSON, M. D.

A marble form
Bloodless and cold—
Life's purple current but yesterday so warm—
Sleeps, and the mould
That cares not for beauty, that feels not a sorrow
Will efface the dear image to-morrow.

Oh! is this death—
Remorseless, cold,
That spurns at pity and takes the heart's wealth
From young and old?
Bedews the dear hearth-stone with tears that burn,
And bedecks, with flowers wan, the funeral urn?

Yes, this is death—
That pale, cold form
Sleeping before me—no pulse, or breath,
Or life-blood warm—
Whose gentle heart e'er beat to manhood true,
Now passed away forever from my view!

Farewell awhile!
We meet again—
Not on this wintry shore, where sin and toil
Can give us pain
But home—in the shining worlds on high—
"Not made with hands, eternal" in the sky!

Quarterly Conference.—Rev. A. G. Haygood, Presiding Elder, gives notice of the following quarterly conferences of the Methodist Church in his District:

Evans' Chapel, Atlanta, 3d Saturday and Sunday in April.

Oxford Circuit, 4th Saturday and Sunday in April.

Conyers Circuit, 1st Saturday and Sunday in May.

Stone Mountain Circuit, 2d Saturday and Sunday in May.

Decatur Circuit, 3d Saturday and Sunday in May.

Monticello Circuit, 4th Saturday and Sunday in May.

Wesley Chapel, Atlanta, 5th Saturday and Sunday in May.

Atlanta Circuit, 1st Saturday and Sunday in June.

Lawrenceville Circuit, 2d Saturday and Sunday in June.

Covington, 3d Saturday and Sunday in June.

Fulton Circuit, 4th Saturday and Sunday in June.

Walton Circuit, 1st Saturday and Sunday in July.

The Street Railroad.—We are informed by Mr. James, President of the Road that the amount already subscribed is $27,000. The whole amount required to build the road is $40,000. The company will start when $35,000 is subscribed.

The history of street railroads in the United States, demonstrates that there is no better paying stock than investments in the stock of such roads in prosperous towns and cities.

The advance of Atlanta from almost nothing in 1865 to thirty thousand in 1869, is scarcely equaled by the progress of any city in the West, when the almost miraculous fourth of cities is a proverb. Alex. H. Stephens has always prophesied that Atlanta would exceed in population any city in the Southwest whether in the interior or on the seaboard. That she was destined by geographical position united in the salubrity of climate, to become the distributing centre of the great commerce of what will be, in the near future the teeming millions of the richest and most desirable portion of North America. It is true she is now realizing this prophesy, but it is incumbent upon her citizens to avail themselves of every means to accomplish it. One of these means is easy communication between the distant parts of the city. The building of the road will increase the value of every foot of land within a quarter of a mile of the road. Let every property holder, therefore, come up and contribute a share for his own special advantage as well as the general accommodation of the public. Richard Peters, G. W. Adair, J. H. James and several others among our shrewdest financiers have already subscribed handsomely. Come up gentlemen for your own interest and aid in raising the amount required to carry through the project.

Railroad Station Indicator.—We have examined an instrument which serves a purpose and fills a want long felt by the traveling public. It consists of a marine clock, around which the names of the various stations on the route are placed opposite the times of arrival by the railroad schedule. By a place at the hour-hand the passenger can tell his precise position on the road.

For the purpose of introducing the invention without cost to railroads, the plate which encloses the disk, is divided into spaces for advertisements, and it will commend itself to the business community as an admirable vehicle for advertising.

We are informed that, on the trip from Atlanta to Augusta the Indicator kept excellent time, and was pronounced by the officers of the railroad and by the passengers a perfect success.

Our townsmen, E. B. Marshall, is the inventor, and Gen. W. S. Walker the general agent and part proprietor. They propose to take measures to have the instrument placed rapidly on all the roads in the United States, and to extend it to Europe.

Sanitary.—At a call meeting of the Atlanta Board of Health, I was requested to call the attention of citizens to the sanitary condition of their premises.

The season is approaching when it will be essential to health to observe such hygienic regulations as will prevent accumulations that may tend to generate malaria.

Where localities do not furnish ample drainage, artificial means should supply the deficiency.

Attention is particularly directed to the condition of sinks and water-closets, and such agencies employed as will prevent the existence of nuisances.

A free use of lime and a solution of sulphate of copper are recommended—the latter can be obtained on moderate terms, and is considered an efficient disinfectant. A little timely precaution may ensure health, and tend to shorten the list of mortality the coming season.

J. N. Simmons,
Chairman Board of Health.

Personal.—We had the pleasure yesterday of a social call from Col. T. M. Acton, the "fat boy" of The Constitution. He was in fine spirits and his visit was very agreeable. We commend the Colonel wherever he may go in the interest of the paper he represents.—*LaGrange Reporter.*

"Our fat boy" is always in "fine spirits," and his trips "agreeable" to all parties concerned. The report that he had set up a dancing school in the "State of Carroll" is unfounded.

The Atlanta and West Point Railroad.—We were in error in stating in our Sunday morning paper that several freight cars were smashed up on this Road. A freight engine was thrown off by a concealed imperfection in the switches, at the Junction of this Road with the Macon and Western Road. The engine was slightly injured but no cars were damaged. The trains on both roads were temporially detained but no mail connections were lost. There has not been a mail failure on the Atlanta and West Point Railroad, for two years and a half past. Ten Roads in this county can make a better showing, and the fact demonstrates to ability, promptness and fidelity of its officers.

American Newspaper Directory.—We are indebted to the live publishing agents, Messrs. G. P. Rowell & Co., of New York, for a copy of their work with the above title. It is a handsomely bound octavo volume of three hundred and fifty-eight pages, and contains a list of all the newspapers and periodicals published on the North American Continent. The plan of the work is one of great comprehensiveness and distinctness, and such a classification of newspapers and periodical sheets is presented as will make it almost an indispensable work to those connected with advertising. The work is also most admirably printed.

Beautiful Printing.—Printing in colors is one of the most difficult achievements of the printer's art, and is seldom done well. The Daily Constituton Job Office of this city, with new type, presses, and fixtures, has, however, just worked off a job of this kind in excellent style. It is a blank form for Fulton county bonds, in six colors, put on by running through the press five times, is superior work, and would do credit to any office.—*Methodist Advocate.*

We highly appreciate the above compliment, coming as it does from men of many years experience in the printing business, and whose taste has been demonstrated by the neatness and beauty of their own publications. The complement to us could not be a *fuller* one.

In a New Role.—Col. Robt. McKee, the accomplished gentleman and versalile writer who lately so ably filled the editorial chair of the Selma Times, has accepted the agency of the "National Life Insurance Company," for the counties of Dallas, Perry, Bibb, and Jefferson, Alabama.

A large audience paid their respects to Bullard's Panorama of New York City, at Davis' Hall last night. It is a magnificent work of art and will attract all classes of people. Exhibits every evening and night this week, at 3 and 8 o'clock at Davis' Hall. Go and take your family, sister, cousin, or some one's else cousin with you.

A Worthy "Chip."—The editor of the Mountain Signal in describing his recent visit to this city, remarks that he "had the pleasure of meeting our long lost friend and brother "chip," T. C. Wilkinson, who was looking as fresh as an early flower in May. May he live a thousand years."

"Tandy" is prepared to deliver that speech as requested, Bro. Woodward.

Held for Postage.—The following letters are held for postage in the Macon post-office, addressed to the following parties in Atlanta, Mrs. D. W. Flanders, Mrs. L. M. Holliway, and H. J. Sprayberry.

The School Scholars are to be admitted to the Panorama of New York City this evening, at 3 o'clock, for 25 cents each, and pay at the door.

Read, O Woman!—As health is the greatest blessing on earth, so is disease the greatest curse. The first wish of the heart, therefore, in a temporal view, should be health. Nor is this all. As disease renders us unfit to perform the various duties appropriate to our station in life, there is a moral obligation resting upon us to preserve our physical integrity, by using the means at hand for repelling disease.

Now there is nothing so destructive to health in females as a continued *suppression of the menses.* It is a condition which makes a woman useless to herself and a burden to her friends. Dr. J. Braddfeld's *Female Regulator, Woman's best Friend,* is the only certain cure. Lose not a moment in embracing the remedy. feb13-tf

DR. J. BRADFIELD'S

FEMALE REGULATOR,

Woman's Best Friend

THIS valuable Medicine is prepared for WOMEN exclusively, and to be used by WOMEN only. It is adapted especially to those cases where the WOMB is disordered, and will cure any irregularity in the "menses," except in such cases as require a surgical operation. As these last are very rare, the FEMALE REGULATOR is of almost universal application. In a sudden check of the "monthly courses" from COLD, trouble of mind or like cause, it acts like a charm, by RESTORING THE DISCHARGE IN EVERY INSTANCE, thus relieving the fever, headache, pain in the small of the back and "lower stomach," flushes of heat about the face, chilly sensations, burning of the eyelids and general restlessness. Taken in time, all these symptoms pass away immediately, without injury to the constitution. Frequently, however, the proper remedy is not applied in time, the disease becomes chronic, and the foundation laid for numberless evils to the constitution of the woman. The next "turn" comes around and there is no "show," or perhaps the "whites" will appear. There will be some uneasiness about the womb, but very little or none of the natural fluid escaping. The complexion becomes sallow, bowels swollen, a sort of greenish caste about the face, constant dull aching pains in the head, weight in the lower stomach and back, with or without whites, palpitations of the heart, pallor, exhaustion, indigestion, weariness, langour, aching across the loins, loss of appetite, pain in left breast, tightness across the chest, cough and giddiness. If still allowed to go on, "green sickness" will be fully developed—the headache becomes severe, with loss of memory, diminishing sensibility, SICK STOMACH, dyspepsia no relish for food, loss of flesh, increased fluttering of the heart, SWELLING OF THE FEET, legs and body and occasional spitting of blood. The slightest effort causes HURRIED BREATHING, almost SUFFOCATION. The skin is flabby and a "doughy feel." This is a sad picture, but it is the condition of thousands of women between the ages of 15 and 45, who are brought to the verge of the grave by ignorance or neglect to take the proper remedy. To all who are afflicted with any of the symptoms above mentioned, in connection with an irregularity of the "monthly sickness," we earnestly say TAKE DR. J. BRADFIELD'S FEMALE REGULATOR. A few ounces taken, you will at once experience its benefits, and with a little patience you will be fully restored to health.

This remedy has been extensively used for upwards of twenty years by many of the most experienced and successful Physicians of Georgia.

We repeat, that Dr. J. BRADFIELD'S FEMALE REGULATOR is prepared for WOMEN and to be used by Women only.

A trial is all we ask.

ATLANTA, Ga., December 29th, 1868.

Dr. J. Bradfield—Dear Sir: I take pleasure in stating that some time previous to the late war, I used, with the utmost success, on a servant girl, your FEMALE REGULATOR, prepared then at Bradfield's Drug Store, West Point, Ga. She had been suffering severely from suppressed menstruation, and this Medicine soon restored her to health. She is, to-day, living in Atlanta, sound and well.

I will state, further, that I know of its being used, with equal success, on a servant girl of my brother-in-law, Professor Rutherford, of Athens, Ga. This woman had, I think, been diseased for six years. She was a house servant, and seemed cured, up to the time of "freedom." I do not hesitate to indorse your preparation for the purposes for which you recommend it.

Yours truly, JNO. C. WHITNER.

STATE OF GEORGIA, TROUP COUNTY.

This is to certify that I have examined the recipe of Dr. Joseph Bradfield, of this county, and, as a medical man, pronounce it to be a combination of Medicines of great merit in the treatment of all the diseases of females for which he recommends it. WM. P. BEASLEY, M. D.

This December 21st, 1868.

MOUNTVILLE, 1868.

Dr. J. Bradfield—Dear Sir: I have much pleasure in saying I have witnessed the most decided and happy effects of your Female Regulator in this neighborhood. WM. H. FINCHER.

MOUNTVILLE, 1868.

Dr. J. Bradfield—Dear Sir: I have repeatedly used, in my family, your Female Regulator, and have, in every case, met with complete success.

G. L. DAVIS.

☞ I also prepare, and have for sale, a YEAST POWDER, equal to the best, and for much less price.

☞ I also prepare a LIQUID BLUING, now in use by many of the best house keepers in the city, and pronounced by them to be very superior.

DR. O. S. PROPHITT'S

Family Medicines,

CONSISTING OF HIS CELEBRATED

LIVER MEDICINE,

Anodine Pain Kill It.

ANTI-BILIOUS PILLS,

AGUE PILLS,

—AND—

Dysentery Cordial, Female Tonic,

—AND—

PURIFYING PILLS.

THE excellent Remedies of O. S. Prophitt, M. D., need no recommendation—their well known power in removing the diseases peculiar to our Southern climate having already established for them an enviable reputation in Georgia and the adjoining States. As the majority of persons living in the South are predisposed to disease of the Liver, it is granted by all intelligent physicians that most of the pains and aches of our people are due to organic or functional derangement of that important organ. Prophitt's Liver Medicine and Anti-Bilious Pills strike directly at the root of the evil. They cure the Liver which, in nine cases out of ten, is at the bottom of the Coughs, Dyspepsia, Colic, Sick Headache, Rheumatism, Constipation, Menstrual Obstructions, etc., so common among our people. Earache, Toothache, Acute Rheumatism, Neuralgia and and bodily pains of every kind flee before

Prophitt's Pain Kill It

like chaff before the wind.

If you have Indigestion or Dyspepsia in any form, or any other Chronic Diseases, use

Prophitt's Liver Medicine,

It is safe and reliable; pure Vegetable, and a liquid ready for use at any and all times. Price, $2 a bottle—33⅓ per cent. discount by the dozen bottles or more.

If you get Snake bit, use

PROPHITT'S PAIN KILL IT,

internal and external. If you have a fresh wound of any sort, use the PAIN KILL IT. If you get dog bit, apply the PAIN KILL IT.

DR. O. S. PROPHITT'S

Anti-Bilious Vegetable Pills,

Purgative and Febrifuge,

May be relied upon as a safe and efficient cathartic in all Febrile and Acute Diseases of all kinds.

DR. O. S. PROPHITT'S

VEGETABLE AGUE PILLS,

A safe and certain remedy for Ague and Fever, Chills and Fever, and all kinds of Periodical Diseases, and is safe and reliable for all to take at any time.

DR. PROPHITT'S

COMPOUND DYSCOTERY CORDIAL,

A safe and genuine remedy for all kinds of Bowel Diseases, Dysenteries, Diarrhœa, Bloody Flux, &c. It may be given to all sizes, ages and sexes, and at all times, with perfect safety, where there is anything of that class indicated.

FEMALE TONIC,

—AND—

PURIFYING PILLS.

The Purifying Pills and Female Tonic are associated together as a full preparation, as you see in the Bills. They have given perfect satisfaction in my practice for the last twenty years, in all cases that they are recommended for. The Pills may be taken in connection with the Liver Medicine, without the Tonic, when there is any indication for them, such as Shortness of Breath, Swelling of the Feet or Face, or a Pale, Weak state of the Blood, or a Flabby state of the Muscles, as generally follow Fever, and Chills and Fever.

All of the above Medicines sold by Druggists and Merchants generally throughout the Southwest. Sold by W. E. Lansdell, Redwine & Fox, Curtis & Floyd, Pemberton, Wilson, Taylor & Co. Atlanta, Ga. Office.

Prepared only by Dr. O. S. PROPHITT,
Covington, Ga.

All the above remedies for sale by

Natural Verdict.

JEFF. DAVIS—WHAT A RADICAL CORRESPONDENT SAYS OF HIM.

[From the London Cor. Cincinnati Gazette.]

I had an admit to the Speaker's Gallery, which holds about fifty, who get their names put down three days previous.

While I am standing in the group, eagerly watching the Police Sergeant, who will presently call the names of the privileged few, I hear:

"Isn't this Mr. Davis?"

I turn round and right behind me stands Jefferson Davis. But 'zounds! what a change in mortal man! I would scarcely have known him if my attention had not been called to him. And can it be possible, I mused, that this shriveled-faced, thin-voiced, shrunken-limbed, slouchy, little old man is the eloquent, commanding Senator from Mississippi, the prompt, resolute and covertly Secretary of War that was really President when Franklin Pierce was ostensibly. I tell you the truth. A feeling of pity stole all over me. I was touched, and there is no knowing what my impulse of tender magnanimity to our fallen foe would have driven me to do and say if it had not met in the impulse of the man who put the question I have quoted that obsequious sycophancy toward the slaveholder's rebellion which for these ten years past has been the pre-eminent characteristic of anti-slavery England. Mr. Davis quietly replied, "That is my name, sir."

"What, Jefferson Davis?"

"Yes, Sir. May I ask your name, sir?"

"Harris, but I am nobody; I am simply an Englishman who deeply sympathizes with you. I have often wanted to see you; I have your picture hanging up in my house and I prize it very highly."

This was said in an agitated, fervent way, while hands were shaken, and then Mr. Harris, who is a gray-haired, well-to-do-looking gentleman, put his mouth close to Mr. Davis' ear and whispered, what I did not hear, but what I could not but imagine was: "England was with you, and if you could have held out another year, we would have joined France in recognizing your Government. Mr. Davis smilled feebly, and I thought sadly. His name was called and in he went. I followed immediately, and saw him met by one of the House attaches, the gentleman in black sword-breeches and shad-belly coat, with a silk sunflower on its back, who absolutely bent double (I am not exaggerrating) at the approach of Mr. D., and went dancing, and flushing, and smiling before him, whispering to everybody, "This is Mr. Jefferson Davis," and gallanted him to a sort of pew there is for specially favored strangers on the floor of the House, deep in a recess, and where Mr. Davis sat down with Archbishop Manning and Dean Stanley. What the Archbishop said, and what the Dean said, and what the ex-President said, I know not, for I must hurry to my seat, far over their heads, or lose it.

POWER OF BEAUTY.—Lord Shaftesbury related an incident illustrating the effect of womanly grace and purity on the roughest natures. In one of the worst parts of London, he said, there was an institution he visited. In one room he found about thirty-five men listening to the teachings of the daughter of a small shopkeeper in the neighborhood. She was one of the prettiest women he ever saw in his life. He noticed that there was no one present but the young woman with those rough men, and he said to the superintendent. "Are you not afraid to leave my dear little friend alone with all those men?" He replied, "I am." "Then why don't you go to her?" "You mistake my fear. I am not afraid of their doing her any harm. They love her so much that they would lick the ground on which she walks; but I am afraid some person may step in, and, not being under authority, or knowing the manners of the place, may say something impertinent to her, and if he did he would not leave this place alive."

☞ We noticed at the door of R. J. Powell a bunch of wheat stalks, thirteen in number, from two grains. They are about two feet long. Mr. H. A. Swatts, upon whose land the wheat grew, states that he has eight or ten acres of that height. The field was an old orchard, but under the excellent management of its proprietor, will compare favorably with any field in the county.—*Barnesville Gazette.*

☞ It is said that Calisaya Bark has a peculiar effect upon the liver, and guards the system against diseases by exposure and irregular diet. It is conceded that the great success of the wonderful Plantation Bitters, which, previous to our late unhappy difficulties, was found in most southern homes, was owing to the extract of Calisaya Bark which it contained as one of the principal ingredients. In confirmation of this we have heard one of our distinguished Physicians remark, that whenever he felt unwell from ordinary dietetic or atmospheric causes, he invariably relieved himself by Plantation Bitters. We speak advisedly when we say that we know it to be the best and most popular medicine in the world.

A CHALLENGE TO THE WORLD!

WE challenge the world to produce a better or a stronger recommendation for any article for any purpose than the following:

NOVEMBER 1ST, 1868.

We very cheerfully unite our testimony in favor of the great merits of the valuable disinfectant manufactured by PROF. DARBY, and known as **Darby's Prophylactic Fluid**. From the reputation of Prof. Darby as a scientific gentleman, from our own knowledge of this preparation, and from the general esteem in which it is held wherever known, we have no hesitation in recommending it as one of the most valuable household articles with which we are acquainted.

HOW TO UTILIZE THE OAK FORESTS
—OF THE—
SOUTHERN STATES.

THE Undersigned is now ready to grant Lisences or to sell Factory or Territorial rights for the use of his Improved Appliances for the Manufacture of Imperishable Concentrated Extract from Oak Bark, for Tanning and Coloring purposes, requiring them for either a small royalty or a reasonable consideration for excelsior rights.

A Factory complete in all its appointments, capable of manufacturing 50 barrels of Extract every 24 hours—will cost Eight Thousand Dollars, not including cost of motive power, which may be of Steam or Water, and of 25 Horse Power.

A Factory of half the capacity, or 25 bbls per 24 hours, will cost Five Thousand Dollars. While a Factory capable of producing from 12 to 15 bbls per day—will cost, not to exceed Three Thousand Dollars.

The above estimates include cost of Building, Tanks—which are of wood—Mill, Condensing Appliances, and every requisite save motive power, which may be of Water or Steam, and of from 15 to 30 horse power as per capacity of Factory.

These new devices for Manufacturing Concentrated Extract are in practical use, and have the endorsement of the best judges as being the most perfect, simple and cheapest in use.

Competent men will be provided for putting these Factories in operation for those to whom lisences may be granted. All particulars may be learned by addressing,
